

Birth of the Empire

by Ray Phoenix

The galaxy has been at war for years now and there is finally an end in sight. The evil Confederate forces ruled by evil Jedi, Darth Maul have withdrawn from most planets in the galaxy and they are now only just an armada of ships that want to give their final blow to the Republic Capital, Coruscant. Darth Maul still does not take no for an answer. Darth Maul's forces have already captured the leader of the Republic, Chancellor Palpatine and is holding him as a prisoner in his flagship in orbit of Coruscant the capital planet. Jedi Master Obi-Wan Kenobi, and Jedi Knight Anakin Skywalker have been appointed to command the platoon of remaining Republic Clone troops to go to the remains of the Confederacy and end the war once and for all and rescue the chancellor.

Chapter 1

Confederate ships and Republic ships are in orbit of Coruscant and they exchange blaster fire at each other. Obi-Wan and Anakin are in Jedi Starfighters and they lead a squadron of clones to the enemy ships. The clones shoot down some droid Starfighters. The clones in TIE fighters fly ahead of the Jedi and they pick off droid fighters lurking ahead. A Confederate ship gets destroyed by a group of clone bombers and the Jedi fly around the broken remains of the ship. Anakin is in his ship and he looks at the computer in it. Anakin said, "I have a course set for Darth Maul's frigate." Obi-Wan said, "We will get there but first we have to safe guard that clone transport behind us so it gets in safely." A droid ship flies over Anakin and Obi-Wan and it shoots out a swarm of buzz droids at them. The bug-like droids land on Obi-Wan and Anakin and they start eating into their Jedi Starfighters. They go to Obi-Wan's R2 unit and they rip its head off." R2-D2 is on Anakin's fighter and R2 uses his gadgets to fights off the buzz droids. Anakin and Obi-Wan see that the door to Darth Maul's ship is closing in. They fly inside and a group of clone fighters and transports land in the ship.

Anakin and Obi-Wan jump out of their fighters and they take out their lightsabers and they cut down the droids in the hanger. Clones get out of the transport and they shoot down the droids. Obi-Wan goes to R2 and he said, "R2, stay right here. We may need you later." Obi-Wan said, "Anakin, clone group Theta, come with us." Obi-Wan, Anakin, and the clones open the door and they enter the main inside of the ship. They see droids all around. The Jedi cut down the droids and the clones shoot them off. Guard droids armed with lightsabers show up and they cut down the clones and Obi-Wan and Anakin fight them off. They cut down a few of them and they are soon surrounded with the droids. Then, a Ray shield comes out and encloses Anakin and Obi-Wan. Obi-Wan said, "A ray shield? We are smarter than this?" Anakin said, "Apparently not."

Anakin and Obi-Wan are brought to the prisoner section where the Chancellor is chained up in a seat and is watching the Republic forces getting destroyed. The Chancellor said, "Obi-Wan and Anakin. Is great that you are here." Anakin said, "We've come to get you out of this prison." Obi-Wan said, "We've actually have been trapped in this prison." Chancellor said, "Darth Maul." Anakin said, "What about him?" Chancellor said, "He's right over there." Obi-Wan and Anakin turn around and they see Darth Maul there. Darth Maul said, "It is time I finally finished you off. I could not destroy any of you earlier but I will destroy you this time. I have improved my skills." Anakin said, "So have I. I have my master here with me this time." Darth Maul said, "Evening the odds. That is what you always do." Darth Maul takes out his dual bladed lightsaber and Anakin and Obi-Wan take out their lightsabers and they duel. Darth Maul spins his lightsaber in the air and he slashes it at Anakin and Obi-Wan's lightsabers. Darth Maul cuts Obi-Wan's leg with his lightsaber and he uses the force and he throws Obi-Wan against the wall and Darth Maul uses the force to send junk down on Obi-Wan. Anakin keeps dueling with Darth Maul. Darth Maul said, "It is useless to resist. Don't have the same thing happen to you like what just happened to your friend over there." Anakin keeps dueling Darth Maul and he keeps using rage in it. They duel in front of the Chancellor.

An advanced droid starfighter shows up and it shoots its laser blasts into the fray. It shatters the glass completely and things in the room start flying out into space. Anakin grabs onto an object that is bolted to the floor. Darth Maul jumps in the starfighter. Darth Maul said, "You are doomed. I just set this frigate to explode in ten minutes. You and your friends are doomed." Darth Maul leaves the scene in his starfighter. Shutters close around the windows and the room returns to normal. Anakin uses the force and he undoes the chains on the Chancellor. The Chancellor said, "Darth Maul is very troublesome. We won't die. There is still a way we can get out of this mess." Anakin goes to the pile of junk Obi-Wan is stuck under. Anakin digs through the junk and he finds Obi-Wan. The Chancellor said, "We do not have any time for this." Anakin said, "Not true. His fate will be the same as ours."

Anakin takes Obi-Wan and the Chancellor and they leave the room from a wall that was destroyed from the blaster fire. Anakin carries Obi-Wan on his back. Anakin takes the commlink and he calls R2. Anakin said, "R2, send me the location of escape pods." R2 makes sound. Anakin said, "You mean that have all been jettisoned?" R2 makes more sound. Anakin said, "It looks like Darth Maul jettisoned all the escape pods from this place just so we would be stuck here. The only thing we can do now is get to the main control room and stop the sequence and further control the ship from there. R2, meet us at the control room." Anakin, Obi-Wan, and the Chancellor go to the elevator and they ride it up to the control room. The elevator gets stuck. The Chancellor said, "Great, the elevator is stuck. Now how are we going to get out of this mess?" Anakin said, "Leave that to me." Anakin takes out his lightsaber and he cuts a hole in the ceiling and he jumps up there. The Chancellor carrying Obi-Wan climbs up there and they grab onto Anakin. Anakin takes out a harpoon gun and they connect it to the top of the shaft and they zip up there. The elevator comes back on and it zips up the shaft too. It is going at a fast speed right under our heroes. The heroes find the control room and they roll in there just seconds before the elevator would come in and crush them.

Obi-Wan wakes up and he said, "What happened? Where are we?" Anakin said, "Darth Maul set a self-destruct command into this place and we have less than five minutes to

take control of this.” R2 enters the control room and he connects to the frigate's computer. R2 makes noise. Anakin said, “You mean there is no self-destruct command in effect?” Obi-Wan said, “It looks like we've been set up again.” The doors open and guard droids and lightsaber droids enter the control room. Anakin and Obi-Wan go crazy and they slash down the droids. R2 connects to the computer and he activates a command and it makes all the battle droids and guard droids deactivate. Anakin said, “Nice work, R2.” Anakin and Obi-Wan go to the controls of the ship. Obi-Wan said, “The only way we could possibly land this ship is if someone manually controls it.” Anakin said, “You keep saying I am the best space pilot so, here goes nothing.” Anakin takes the controls of the ship and he takes the ship into Coruscant. He lands the ship on a runway on the planet. The ship lands in place and transports come around to collect, Anakin, Obi-Wan, the Chancellor, and R2.”

Chapter 2

The heroes are brought to the front of the main senate building on Coruscant. Jedi, and senators greet the heroes. Mace Windu is there. The Chancellor said, “Master Windu.” Mace said, “I see that you are alright.” Chancellor said, “I was with these guys. They saved me. I owe them a lot. Unfortunately, Darth Maul got away again.” Mace said, “Darth Maul always gets away. That's his thing. That won't happen this time. He has hidden on so many planets that he has nowhere else to hide. It will only be a matter of time before we find him and end this war that has been going on far too long.” Anakin reunites with Padme. Padme said, “Anakin, I was in fear for you. I thought you may have been killed.” Anakin said, “Well, I am here and I'm alive.” Padme said, “I'm pregnant.” Anakin said, “That's great. Nothing else matters now. We have something great in our hands.” Bale Organa enters the scene. Organa said, “Anakin Skywalker, I just heard you are going to be a father soon.” Anakin said, “I will.” Organa said, “I look forward to the wedding we will have today.” Anakin said, “Yeah, I forgot about that.” Padme said, “How could you forget about your own wedding?” Anakin said, “I've been busy for the last few months trying to plan perfect revenge on that creep that took my right hand and everyone that I cared for back on Tatooine.” Padme said, “Don't worry about that now. Worry about something better like the wedding which is in a few hours.” Anakin said, “Okay I will.”

In a chapel on Coruscant, Yoda is on the stage and Anakin is dressed nice and so is Padme. Jedi and senators are in the seats watching this. Anakin and Padme take the stage. Obi-Wan and Mace Windu are standing on the sidelines and the Chancellor is on the other side. Yoda said, “Since the early days of the Jedi, it has been the role of the leader of the Jedi counsel to conduct wedding ceremonies that involve Jedi. I have here Anakin Skywalker and Padme Amadala and they will be joining in union for all eternity. Anakin Skywalker, do you take Padme Amadala to be your lawfully wedded wife?” Anakin said, “I do.” Yoda goes to Padme and he said, “Do you...” Padme said, “I do.” Yoda said, “I now pronounce you husband and wife. You may kiss now.” Anakin and Padme kiss each other and the people

watching this clap.

Anakin goes to the guests and Mace said, "I am glad for you." Obi-Wan said, "You deserve some time off. Now that you are married. I will deal with all our battle plans instead. Don't worry about anything for at least a few months." The Chancellor said, "Anakin Skywalker. I am glad you're finally married. I'm sure your children will make great Jedi one day." Anakin said, "I hope so." Obi-Wan said, "Do you plan on teaching your kids the ways of the Jedi?" Anakin said, "I do. In fact, If I die soon for whatever reason, I want my kids to know who I was. I want one of my kids to have my lightsaber when they are old enough." Obi-Wan said, "I will see to that."

Obi-Wan and other Jedi are in the Chancellor's office. Palpatine said, "We have found out that the Confederacy has only one more outpost left in the entire galaxy. It is a factory that is located on Boz Pity. I am sending Master Obi-Wan Kenobi there. I will also send our General Dodonna there as well." Mace said, "Hold on. You are the Chancellor. You do not have the authority to issue commands to anyone in the Jedi order." Palpatine said, "The Jedi order falls under Republic jurisdiction and I am the dictator of the Republic." Mace said, "I still think you are making a mistake by doing this." Obi-Wan said, "Don't worry, Mace. We will end this war shortly and things will return to how they were before."

Obi-Wan is sent to the swampy planet, Boz Pity. Obi-Wan treks through the dense jungle with a group of Clone troopers with General Dodonna. The General stops Obi-Wan and the clones as they reach the edge of the jungle. Dodonna said, "There is something up here." Obi-Wan said, "I sense it too." General Dodonna peeks around the place and he sees giant robots with four legs and are heavily armored." The General hands Obi-Wan his set of binoculars. Obi-Wan sees the robots and he said, "Is this what the Confederacy has come down to?" Dodonna said, "It appears so." Obi-Wan takes out his commlink and he calls their frigate in orbit. The frigate is controlled by people that wear gray suits with colored squares that indicate their rank. The frigate commander said, "Commander Tarkin here." Obi-Wan said, "Tarkin, this is Obi-Wan Kenobi. The Confederacy has strongly armored robots that are heavily armed. It looks like we need a few squadrons of bombers to take them out." Tarkin said, "Bombers eh, I don't think you need those. Try taking them out without the bombers." Obi-Wan said, "Are you crazy? That is suicide." Tarkin said, "Don't look at me. I'm the one that has to stay in orbit while you go down on the planet and actually combat the threat." Tarkin turns off his commlink. Obi-Wan said, "I don't believe this. They are refusing to help us." Dodonna said, "I knew this time may come. We need to take advantage of what we have. We need to use the force and think." Obi-Wan said, "I probably could do something with the force. I have an idea."

Obi-Wan hides behind an ancient sculpture and the robot mechs patrol the area. Obi-Wan uses the force and the mech turns around. Obi-Wan zips under the mech and he throws his lightsaber into it and he cuts the head of the mech off and it falls to the ground. The rest of the mech's body falls to the ground and is destroyed. Dodonna said, "It looks like we can move in." The rest of the team storms the inside of the ancient temple. They see Confederate factories that are producing more of those mechs plus advanced fighters. The Republic forces are spotted. Obi-Wan takes out his lightsaber and he cuts down some of the droids. General Dodonna takes out his blaster and he shoots down a few of the droids. A battle droid throws a grenade into the cluster of clones and destroys some of them. The clones punch down the droids and they take out small lightsabers and they cut them down.

Obi-Wan said, "It's about time the clones learn to be more like us." Dodonna said, "I don't trust the clones. Palpatine ordered for them to become more Jedi like and I think something is up." Obi-Wan said, "There is always something up."

The heroes enter another hanger in the place and they see rows and rows of Z-95 head hunters. Dodonna said, "Those are Z-95 head hunters. Those Confederate fools stole my plans. I was designing those and they stole them from me." Obi-Wan said, "I didn't know the Republic was in the market for a new type of fighter like that." Dodonna said, "They weren't. I came up with it for my personal use." Obi-Wan cuts down more of the droids and Dodonna shoots down the last one. A guard droid sneaks up on Obi-Wan and Dodonna raises his hand and he moves the droid with his mind and he makes the droid get smashed into the side of the wall." Obi-Wan said, "Wait, you're a Jedi too?" Dodonna said, "I am. I never joined the order since I am afraid of the challenges a Jedi could get. I sense something is horribly wrong here. I know something is up." A clone walks up to Obi-Wan and he said, "Master Kenobi, we have cleared the temple. There are no more droids left." Obi-Wan said, "You see, there is nothing to fear here."

Chapter 3

Anakin is meditating with Yoda in the training room. Yoda said, "Feel the force, flow through you. Feel it. It is a powerful thing that binds every living thing in the galaxy." Anakin said, "I feel it." Yoda said, "The force will be your ally. Use its knowledge and power to help raise your kids in the way of the Jedi. No more I have for you. You may go now." Anakin leaves the training simulator and he sees Palpatine is in the hallway. Palpatine said, "Anakin, you are just the man I wanted to see." Anakin said, "Well, I am officially on leave right now..." Palpatine said, "That is just what they said to you to be nice. You should not take a leave of absence. You are better than that." Anakin said, "What is this about?" Palpatine said, "I don't trust the Jedi counsel anymore. I am making you my spy for the counsel. I know they are up to something. Mace Windu has been talking crap about me for years." Anakin said, "Mace Windu is one of the most powerful Jedi in the order." Palpatine said, "Yes, but that does not mean he is always right. Think for yourself, Anakin. Think about what is right for you. You have done a lot since you became a Knight. I think you are ready to become a master." Anakin said, "You really think so?" Palpatine said, "Show the Jedi counsel this order from me and they are sure to make you one of them."

Anakin goes to the counsel and he gives Mace Windu and Yoda the recommendation letter from Palpatine. Mace said, "Anakin, by order of the Chancellor, we give you a spot on the counsel, but we do not grant you the rank of master." Anakin said, "Why not?" Mace said, "To be a master on the counsel, you need to have decades of experience under your belt. Not even Obi-Wan has that kind of experience under his belt." Anakin said, "This is unfair. I saved your butts multiple times in the last many years since I've been here. I saved Obi-Wan, I saved Coruscant from Darth Maul's city in space and I even tried fighting Darth Maul single

handed and lived to talk about it after-wards. I think I deserve to be a master.” Mace said, “Calm down. You lost your hand to that Darth Maul fight months ago.” Anakin said, “Could you have done any better?” Mace said, “I probably could have.” Anakin said, “If you really want the Chancellor to give up his dictator powers, then why don't you go after Darth Maul and end this conflict once and for all.” Mace said, “Being a good Jedi is not just about fighting the forces of evil. It has a lot more than that. You need to learn to be a good thinker. It is not always about getting what is best for you. Darth Maul is a living thing and he deserves a fair trial once the war is over and when he is sentenced for his crimes against the Republic.” Anakin said, “We don't even know where Darth Maul is. He could be planning something worse than what we could have imagined. Didn't Obi-Wan recover some plans from Darth Maul months ago that said he was building a sphere that can destroy planets completely. Obi-Wan even told me that his fate said he would die on that thing. We need to take out Darth Maul so we can stop this from happening.” Mace said, “Calm down Anakin. We don't know any of that for sure. You cannot act on hearsay. I think you deserve some additional training from Yoda. You have been angrier and more aggravated lately. I think you could use some more rest time. Have a seat for now.” Anakin takes his seat on the counsel.

Mace said, “I don't trust the Chancellor and I don't think any of you trust him either.” Everyone except Anakin nods their heads meaning yes. Mace said, “I think we should carefully watch Palpatine's day to day activities. He might just be manipulating Anakin into becoming his evil dog on a leash. We know the war is coming to an end and Palpatine is still using his unlawful dictator powers to the full extent. I think it is about time we step in and do something about this. Anakin, I want you to see him and ask him about future plans for when the war ends. I also want you to steal his personal documents and bring them to us.” Anakin said, “I guess so.” Mace gives Anakin a stern look. Mace said, “You need to watch your attitude. You are not going to get very far with that.”

Anakin goes to Palpatine and he tells him about everything the counsel said. Palpatine said, “They said what?” Anakin said, “You heard correctly.” Palpatine said, “I knew they were starting a mutiny with me. We cannot let this happen. I will deal with this myself. In the meantime, I do have a task for you. Our intelligence tells us that Darth Maul is hiding on the planet, Ord Mantel. I will send a group of the new lightsaber dueling clones with you. They are trained like Jedi. They will rip your enemy apart.” Anakin said, “Thanks.”

Chapter 4

Anakin goes to Ord Mantel and clones with lightsabers guard him. A monster jumps out from a cluster of junk and the clones fight him off. Anakin said, “So this is where all the junk in the galaxy goes to. I guess it makes sense why Darth Maul would want to go here.” Anakin searches through the junk and they come across a large building. A clone said, “I think that's a junk processing plant.” Anakin takes out binoculars and he has a closer look at

the place. Anakin sees that there are windows that reveal there are offices in there. Anakin said, "I bet that is where Darth Maul is hiding. Let's go in and end that sicko's life."

Anakin and the clones barge down the door to the building and battle droids are everywhere. The clones fight off the droids. All the droids are cut down in a matter of seconds. Anakin takes out his lightsaber and he turns it on. Darth Maul jumps out from under the shadows with his dual bladed lightsaber activated. They clash lightsabers together. Darth Maul said, "So you still did not learn your lesson the first two times." Anakin said, "I am a slow learner." They duel and clash swords with each other. The clones get involved in on the action and Darth Maul kicks two of them off and he cuts down a few more of them. Anakin and Darth Maul end up in the junk processing place where machines are at work processing junk. Anakin and Darth Maul end up on a long narrow platform where they keep dueling. Darth Maul spins his lightsaber very fast and Anakin barely keeps up with Darth Maul's attacks. Anakin uses rage against Darth Maul and Darth Maul stands still and does nothing while Anakin slashes away at Darth Maul's lightsaber. Darth Maul yawns. Darth Maul said, "Is that everything you got?" Anakin said, "No it is not." Anakin holds his lightsaber back as if he is charging up for a powerful attack. Darth Maul slashes Anakin in his upper left arm and Anakin crouches down on the platform in pain. Darth Maul cuts up Anakin some more and Darth Maul picks up Anakin and he throws Anakin down into the dangerous machines. Darth Maul said, "I would love to stay and chat but that is kind of hard to do since the machines are processing you. I will leave now. I will see you on the flip side." Darth Maul goes back into the main office room where clones are aiming their weapons at Darth Maul. Darth Maul said, "Anakin is down in the machines right now getting processed just like the junk." The clones go to fight Darth Maul but Darth Maul just uses the force on them and throws them off. Darth Maul leaves the scene.

Anakin is horribly injured in the machines. Medical clones come in and they recover him and his lightsaber and they take him to a Republic frigate where they put him in the medical ward. Anakin is brought back to Coruscant where he is put in intensive care. The Jedi come and watch this. Mace said, "How could this have happened?" Yoda said, "Palpatine is getting stronger by the minute. He is tricking Anakin into getting dangerous tasks where he nearly gets killed." Mace said, "We cannot let this continue. We need to act now. We are going to the Chancellor and confronting him during the senate session tomorrow. Everyone will see how much of a fool he is there."

Chapter 5

Chancellor Palpatine takes the stage in the senate the next day. He looks at all the senators. The Chancellor said, "Well, let's begin looking over the budget for the city which there is none so I guess we can skip that." The Jedi barge in the senate and Mace Windu leads them in. Mace Windu said, "Chancellor Palpatine. We have documents from you that you gave to Anakin. They prove that you were unlawfully abusing your powers against the

Jedi Order. Also, the war is pretty much over and the law of the Republic states that if someone is appointed to be a dictator, then they must step down and return normal. The war has been mostly over for a few weeks now and you still have not done that. People are counting on someone to return peace and order to the galaxy and that person is clearly not you." Chancellor Palpatine said, "I don't know what to say. Those are some major accusations you have placed against me." Mace places down a law book in front of the Chancellor with the parts he referred to highlighted. Mace said, "If you read here, it does say that it is unlawful to be a dictator when it is not a time of emergency. You are breaking the law." Palpatine said, "You don't get it. I am a dictator. I can do whatever I want regardless of what anyone else thinks. I choose to eliminate those old laws and I will be writing new ones later today." Mace looks at the people in the senate. Mace said, "Organa, you know this is not right. Don't you want to take a stand?" Organa said, "I would like to take a stand. If I take a stand, I might get punished." Padme said, "I don't want to be put in any danger or risk losing the things I love the most." Padme rubs her lump from pregnancy. Mace said, "This senate is filled with blind fools that don't know how to run a government. I've had it with all these mother fricking fools in this mother fricking senate!" Yoda said, "Blinded their judgement has been by the dark side." Mace said, "You sense the dark side?" Yoda said, "Strong the dark side is. The senate is filled with the weak-minded." Mace turns to the Chancellor and he said, "This is what I thought then. You are the evil Jedi that made Darth Maul turn to the dark side. You are just corrupting the senate." The Chancellor snaps his fingers and security guards come in and they throw Mace Windu out of the senate. All the other Jedi crowd around him. Valmer said, "What are we going to do now? The senate is blind and stupid and the Chancellor is all powerful." Mace said, "We are going to need a better plan for resistance." Yoda said, "To meditate we must."

The Jedi counsel is back in their seats. Ki-Adi-Mundi said, "This is a difficult thing to do. We cannot just overthrow a senate like that. We need a better plan." Valmer said, "What are we going to do without our two best players? Obi-Wan is still halfway across the galaxy on Boz Pity and Anakin is in intensive care. I think the Republic and our freedom is doomed." Mace said, "As long as we fight, we still have a chance of winning. I will lead. I will seek help from the Professor." A message is delivered to the counsel. Mace gets a hold of it and he opens it up and reads it. Mace said, "Effective tomorrow morning: It is illegal to be a Jedi in the Republic. All Jedi must report to the platform 9150 at 8AM. They will be sent to a work camp where they will work without pay. They will spend the rest of their lives there. Anyone that does not report to this will be hunted down. Resistance is illegal." Valmer said, "You see here? The Chancellor wants us all dead." Mace said, "He probably does not want you at all. He is after someone else in particular and he is blaming all of us on it." Valmer said, "I get that feeling that the someone is you since you went against him in the senate today." Mace said, "We should stop arguing and actually do something. I will pay a visit to the Professor."

Mace goes to the Professor's lab. C-3PO is there and he said, "Master Windu, how may I serve you?" Mace sees the Professor walk in and the Professor said, "Mace Windu, how you do?" Mace said, "We are in a crisis right now. We are going to get hunted off tomorrow and we need your help." The Professor said, "You've come to the right place." I have this new gas spray for R2 here. I also have this energy weapon for C-3PO. C-3PO can now engage in combat. It goes on his hands and it allows him to absorb energy and fire it back at enemies." Mace said, "That sounds pretty good." The Professor said, "I myself can provide additional help. I am also a pilot. I have contacts with the people from Mon Calamari. Ackbar still has his cruisers to give us a hand with." Mace said, "This sounds good. Thank

you for improving our chances of survival tomorrow.” The Professor said, “Anytime.”

Chapter 6

The next day comes. Palpatine is in the intensive care unit and he watches Anakin getting placed into an environmental suit with a black mask and a computer on his chest. The droid surgeon said, “Master, he is nearly finished. He needs another hour to fully adapt. Is there anything else you want?” Palpatine hands the droid a memory stick. Palpatine said, “I want you to transfer the data from this into his memory bank. It will help me with what is to come.”

The Jedi stay in the Jedi counsel. The doors are blasted open and clones run in. The clone commander said, “By order of the Chancellor, you are all under arrest.” Mace said, “Not today.” An R2 unit comes out and sprays a gas into the room. The clones are blinded and the Jedi take out their lightsabers and they slash them off. The gas fades away and clone fighters fly outside the window. They blast inside. A few of the Jedi get killed and the rest of the Jedi leave the room. Clones are everywhere. The Jedi fight them off. There is chaos in the hallways of the Jedi buildings. Citizens of Coruscant get weapons and they help the Jedi fight off the clones.

Anakin is asleep in the room and he wakes up. He looks at himself. Palpatine is in the room. Anakin said, “What happened?” Palpatine said, “Does your memory serve you?” Anakin said, “I remember the Jedi were mistreating me with not making me a master despite my hard work and effort.” Palpatine said, “Yes, you have it. The Jedi have turned against the beloved Republic. They are the real culprits behind the war. You can trust me. I saved your life when you got horribly injured by Darth Maul. Your name is now, Darth Vader. I think you will be needing this.” Palpatine hands Darth Vader a lightsaber and Darth Vader turns it on and it emits a red beam of light.” Palpatine said, “Now go get them.” Darth Vader said, “As you wish, master.”

Darth Vader leaves the room. He sees Jedi all around panicking in fear. They see Darth Vader. A Jedi said, “What the hell is that thing?” The other Jedi said, “Beats me.” They hold their lightsabers up and Darth Vader duels them. Darth Vader slashes one of them down and then he slashes the other one down. Darth Vader leaves the scene. A bomb goes off and kills a group of clones. Darth Vader walks through the smoke. He duels more Jedi. Darth Vader takes down a large group of them in a short amount of time.

Mon Calamari frigates are crowding around a platform in the sky. A large swarm of Jedi get on the Mon Calamari frigates. Mace stands to the side and he checks that they all get on. Darth Vader enters the platform. All the Jedi are on the transports. Mace sees Darth Vader with his lightsaber drawn out. Mace said, “All of you can stay put. I will deal with this thing.” The Jedi watch Mace Windu draw out his purple lightsaber and they watch him go to battle with Darth Vader. They strike their blades. Darth Vader said, “You are good.” Mace said, “Cut it. I know there is good in you.” They duel some more. They swing at each other and they clash their swords in a tight grip. Darth Vader keeps pushing Mace Windu close to the edge of the platform. They lock their blades together. Mace said, “It does not have to be

like this." Darth Vader said, "I know. I want it to be like this." Darth Vader cuts Mace Windu in half and he watches both halves of his body fall off the edge of the platform. The Jedi in the transports freak out and the transports leave the scene. Darth Vader looks at the transports leaving. Darth Vader leaves the scene.

The transports get into orbit and they reunite with the large Mon Calamari flagships. Then, a squadron of TIE fighters and clone fighters, clone bombers, and Darth Vader is in a specially made TIE fighter that goes after the transports. They drop bombs on them and they fire at them. The transports start to spark and they explode. Two transports filled with Jedi are destroyed. Jedi get into Jedi Starfighters and they dogfight the TIEs and Darth Vader. A Jedi Starfighter shoots down some TIE fighters. Jedi Starfighters shoot down the clone bombers. Darth Vader shoots down a Jedi Starfighter and then he goes to shoot down another one. A group of Jedi Starfighters gang up on Darth Vader and they blast his TIE fighter. Darth Vader fires some cluster missiles at the Starfighters and destroys them. Darth Vader leaves the scene. The transports and frigates jump to hyperspace and they leave the scene.

Obi-Wan, Dodonna, and clones camp out in the jungle. Obi-Wan said, "Why are we staying here again?" The clone commander said, "We have orders from Commander Tarkin in orbit that we are to stay on the planet until further notice. Apparently there is some trouble on Coruscant and we need to stay here where it is safe." Obi-Wan said, "There is nothing safe about this place." Clone commander gets a message from Palpatine. Palpatine said, "A new law has been made. Jedi are illegal. Take them out at once." The clone commander said, "Yes sir." The clone aims his blaster at Obi-Wan. All the other clones do the same. Obi-Wan said, "What is going on here?" Dodonna said, "Jedi are now illegal. The clones are now our enemy." Obi-Wan said, "This is a perfect time to tell me." Obi-Wan takes out his lightsaber and he deflects their blaster fire and he sends it back at the clones. Obi-Wan and Dodonna run through the jungle. They get stopped by a robot mech controlled by a clone. It fires at Obi-Wan and Dodonna. Dodonna uses the force to make the mech malfunction. Obi-Wan throws his lightsaber into it and he cuts it down. Dodonna said, "There may be more of them ahead. It looks like our only way off this planet is to use those Z-95 head hunters they stole from me. Our forces in orbit are probably against us." Obi-Wan said, "Good thinking." Obi-Wan and Dodonna head for the hanger where the Z-95s are.

Obi-Wan and Dodonna get to the front of the place and they see clones are patrolling the way. Obi-Wan said, "The place looks heavily guarded." Dodonna said, "I have an idea. They are just clones." Obi-Wan uses the force to cause noise out in the jungle. Two clones go into the jungle. Dodonna and Obi-Wan fight them off with their bare hands and they steal their armor. Obi-Wan and Dodonna get into the hanger. They get into the Z-95 head hunters. They leave the hanger. Obi-Wan said, "I'm glad to have you around. I would be dead without you." Dodonna said, "You may have figured something else out otherwise."

Obi-Wan and Dodonna get into space and they see Republic clone frigates clutter the orbit of Boz Pity. Obi-Wan and Dodonna fly away but they are fired at by the Republic flagship. Commander Tarkin appears on the holographic communicator in the Z-95s. Tarkin said, "Stand down and we will show you leniency." Obi-Wan said, "I don't trust you." Obi-Wan and Dodonna fly away and the Republic flagship flies under them. Obi-Wan and Dodonna fly right above the surface of the frigate. Homing missiles are launched at them. Dodonna does some loops and he shoots down the missiles. Obi-Wan fires proton torpedoes at the missile

launchers on the frigate. The missile launchers are destroyed. Dodonna said, "We are in range for hyperspace." Dodonna goes into hyperspace and Obi-Wan follows him in. Tarkin looks out the window in the flagship. A Republic officer goes to him and he said, "Commander Tarkin, they got away." Tarkin said, "Do you think I'm blind? I can see that. We cannot let Obi-Wan get away. We need to hunt him down at all costs. Follow their course." The Republic ships go into hyperspace and leave the scene.

Chapter 7

Yoda and other Jedi are in the main Mon Calamari flagship. Yoda looks sad and other Jedi look down. Valmer is next to Yoda and he said, "I can't believe he's gone." Yoda said, "He is in a better place in the nether realm of the force. Master Valmer, now that Mace is gone, I want you to take his place." Valmer said, "Really?" Yoda said, "You are just as powerful as Mace Windu and you have knowledge and wisdom. You are a great figure to us. We will need you for what is to come." Valmer said, "Thanks. Where is Obi-Wan right now?" C-3PO enters the scene with R2. C-3PO said, "Master Yoda, our sensors have detected two Z-95 head hunter ships heading this way. They contain Jedi lifeforms." Yoda said, "Bring them in."

Obi-Wan and Dodonna land inside the frigate. Obi-Wan reunites with Yoda and the rest of the Jedi. Obi-Wan said, "What happened exactly?" Yoda said, "The worst. Anakin has turned to the dark side. The Chancellor is the mastermind behind the entire war and Mace Windu and a lot of other Jedi have been killed." Obi-Wan looks down. Dodonna said, "I have building plans right here for those Z-95 fighters. It looks like the Confederacy has stolen them from me and built some." Yoda said, "No more the Confederacy is. All there is left of it is Darth Maul. We don't know where he is." Obi-Wan said, "I don't care about Darth Maul anymore. We need to survive. We need to take a stand against this threat." Yoda said, "Base planet we need." The Professor enters the scene. The Professor said, "Our sensors have found a planet that is suitable for us. It is a volcanic planet but it will serve as a good base of operations for us." Yoda said, "Go there we will. Set up base we must." The Mon Calamari frigates go to hyperspace and leave the scene.

Darth Vader and Commander Tarkin are in the Chancellor's office. Palpatine said, "This is an outrage." Darth Vader said, "I tried to take what I could but the shields on my new TIE fighter malfunctioned." Palpatine said, "I don't care about that. We only killed a small percentage of the Jedi in the order. There is still a lot we don't have yet." Darth Vader said, "Mace Windu is dead." Palpatine said, "It is good you silenced that annoying jerk. We need more against the Jedi. We only have a few hundred clones left and we don't have enough people to form an army. We are already using more resources than we can afford to build our new secret weapon. I say we should force highly trained war criminals to work for us. We will give them a lot." Darth Vader said, "We don't have a lot to give them." Palpatine said, "They won't know that. We are going against Jedi. It is almost certain they will get killed. What

difference does it make to us?"

Darth Vader and Tarkin are in a dusty and dirty run-down prison cell. They look through cells and they see guard battle droids from Darth Maul. They go to the next cell and they see Jango Fett in there. Tarkin said, "Jango Fett I presume." Jango said, "What do you want?" Tarkin said, "How would you like to make more money where you get to fight and defeat more Jedi?" Jango said, "I would take that. Where do I sign?" Tarkin lets Jango out of the cell. Darth Vader and Tarkin let more criminals out of their cells.

A Mon Calamari ship lands on the built-up surface of Mustafar. Obi-Wan and Valmer check out the lab in the place. Obi-Wan said, "This is a perfect lab for the Professor." A barrel falls off the edge of a counter. Obi-Wan and Valmer see a figure in there. They go and find the figure and the figure is Darth Maul. Obi-Wan said, "Darth Maul? Why are you here?" Darth Maul said, "I need somewhere to hide and this is the only place that was still undiscovered by the Republic." Obi-Wan said, "The Republic is no more. We the Jedi are now outlaws. Anakin has turned against us." Darth Maul said, "Really?" Obi-Wan said, "We need all the help we can get to turn him back to our side. We need help with this insurrection we plan on forming." Darth Maul said, "Why would I accept a deal from the people that destroyed by beautiful Confederacy?" Obi-Wan said, "The Republic paid us to do that. We are not getting paid here. We are paying you to join us with our cause and help us fight this new evil." Darth Maul said, "What if I say no?" Obi-Wan said, "You are outnumbered as is. You will get killed or detained otherwise. The Republic still hates you."

The Jedi and other people set up base in the labs. A civilian ship lands in the hanger. Organa and Padme leave the ship and they enter the lab. Obi-Wan said, "Organa, Padme, it is an honor to join us." Padme said, "I was shocked when I heard that Anakin was injured. I was downright traumatized when I heard he turned to the dark side." Obi-Wan said, "There is still good in him. We could still bring him back." Organa said, "I have some stolen battle plans from the Republic. We could use these to take out the Emperor." Obi-Wan said, "The Emperor?" Padme said, "That's what Chancellor Palpatine is calling himself now."

Obi-Wan, Yoda, and other people in the insurrection stand around a table showing holographic plans. Obi-Wan said, "We will begin with an attack in the orbit of Coruscant. Then Yoda, and myself will sneak down to the surface and fight the Emperor in his office. We will have help from other Jedi to take out the guard forces guarding the Emperor's tower. We will get the space forces to take out as many Republic or Empire I guess frigates. We need to destroy as much of the new Empire as we can. May the force be with us." Dodonna steps in and he said, "I've managed to use the Professor's droids and we built a few Z-95 head hunters. They are useful for launching space bombs into the weak points of the enemy frigates. Be careful though. The Z-95s are not very strong. May the force be with us." The people leave and get ready for the upcoming battle.

The insurrection forces bring their frigates into orbit of the planet Coruscant. Empire forces see the insurrection forces and they begin launching lasers and missiles at them. They completely destroy a Mon Calamari frigate. Z-95 and Jedi Starfighters are deployed. A small shuttle carrying Obi-Wan, Valmer, Yoda, Darth Maul, and a few other Jedi is deployed and it lands on Coruscant. They drop off Darth Maul and Valmer at the front of the Emperor's building. They lead a group of Jedi and civilians into the Emperor's tower. Clones and other security units show up and the Jedi fight them. Valmer slashes down a few clones. Darth Maul swings his dual bladed lightsaber and cuts down a few clones. Darth Maul kicks a clone in the face. More and more clones are called to the front of the Emperor's place.

The shuttle goes to the top of the tower where the Emperor's office is. Obi-Wan and Yoda are dropped off into the top. The Emperor is sitting at his chair and Obi-Wan and Yoda enter the office. The Emperor said, "Yoda and Obi-Wan. I am surprised that you two are still alive." Yoda said, "Fear not we do. Bent on ending the Empire, we are." The Emperor shoots lightning out of his hands and Yoda uses his hands and he absorbs the energy and he fires it back at the Emperor and it knocks him out of his chair. The Emperor said, "I am finished toying with you." The Emperor reaches into his robes and he pulls out a red lightsaber with a gold handle. The Emperor activates it and it emits a red beam of light. Obi-Wan and Yoda take out their lightsabers. They duel the Emperor. Yoda jumps around the Emperor and Yoda jumps on the Emperor's head. Obi-Wan clashes swords with the Emperor. Yoda twists the Emperor around and Obi-Wan uses the force on the Emperor to throw him against the wall. Obi-Wan and Yoda keep dueling the Emperor.

In space, Dodonna leads a crew of pilots in Z-95s and they deploy some space bombs on the Empire frigates in orbit. The Professor is in a Z-95 and he space bombs an enemy frigate. They end up destroying a few of them. Ki-Adi-Mundi is in a Jedi Starfighter and he shoots down squadrons of TIE fighters. Then, Darth Vader's TIE fighter shows up. Darth Vader shoots down Ki-Adi-Mundi. Darth Vader takes his TIE fighter to where the Z-95s are destroying the Empire frigates. Darth Vader shoots down two of the Z-95 head hunters. Dodonna has not been shot down yet and he leaves the scene. The Professor also leaves the scene. Darth Vader leads a squadron of clone bombers to bomb down the Mon Calamari frigates. A pilot in a Jedi Starfighter shoots down the TIE bombers. The pilot in the Jedi Starfighter gets shot down.

In the foyer of the Emperor's tower. Valmer and Darth Maul are in the heat of action. Most of the Jedi they brought with them have been shot down. Valmer and Darth Maul deflect shots from the clones' blasters. Jango Fett enters the scene flying in on his jet-pack. He fires a missile from his jet-pack and it hits the ground right next to Valmer and Darth Maul. Jango dashes to Valmer and he kicks Valmer in the face. Valmer drops his lightsaber. Darth Maul cuts up Jango's jet-pack. Jango said, "Master Maul. I thought we had a deal." Darth Maul said, "The deal is off. You joined the Empire and the Empire is my enemy." Jango said, "At least the empire pays more than you." Valmer uses the force and he gets his lightsaber back and he tries to take a swing at Jango Fett. Jango Fett grabs onto Valmer's hand and he crushes it and Valmer drops his lightsaber. Valmer falls to the floor in pain. Jango takes out his blaster and Darth Maul stands in the way of Jango. Jango uses his flame thrower on Darth Maul. Darth Maul's robes catch on fire. Darth Maul runs around panicking. Jango shoots at Valmer in the chest. Darth Maul is the only one of the insurrection people left in the foyer. Darth Maul takes out his commlink. He calls Ackbar up in orbit. Darth Maul said, "I

must retreat. There are too many of them. We lost all of the Jedi assigned to the foyer. Even, Valmer didn't make it." Ackbar said, "It may be a trap. You must leave now. Obi-Wan and Yoda are still fighting the Emperor."

Obi-Wan and Yoda fight the Emperor some more. They get close to the window. Obi-Wan locks his lightsaber in with the Emperor's. Yoda keeps swinging his lightsaber at the Emperor's. The Emperor said, "You have lost. This is where you will meet your end." Obi-Wan jumps out the window and smashes it. The Emperor sees Obi-Wan fall from the window. Yoda uses the force on the Emperor and he throws the Emperor out the window. Yoda jumps out the window. Yoda lands in a shuttle that is piloted by Organa and Obi-Wan is in there. Yoda said, "We've taken care of the Emperor for now. It looks like his Empire is getting stronger and stronger. I can feel it. Valmer is dead and Darth Maul is all we have left down there." Organa said, "I will pick up Darth Maul. We are getting out of here." The Emperor is holding onto a statue on the side of his office.

The shuttle leaves and Obi-Wan, Yoda, and Darth Maul are in the shuttle. Obi-Wan said, "It looks like we had a good chance of winning but now it is hopeless." Darth Maul said, "Our insurrection is doomed." Yoda said, "In exile we must go." Obi-Wan said, "All remaining Jedi must find a safe place to hide. The Emperor wants us all dead." Darth Maul said, "I don't care. I will not hide. I will still try to find my brothers and rebuild the Confederacy." Obi-Wan said, "Maybe you were right this whole time. Maybe your Confederacy was the best way to be. It must be better than the Empire for sure." They reconnect with the main Mon Calamari frigate and they go to hyperspace.

The few remaining Jedi and insurrection people gather round in the briefing room. Ackbar looks over maps of various places in the galaxy. Ackbar said, "I am sending messages to people all over the galaxy warning them of the Empire. The Empire has not sent people to the whole galaxy yet. We have weakened them in the last attack." The Professor said, "I have an idea. We will send the message to people across the galaxy and urge for them to join our cause. Right now, the Empire wants us the most. If we can lure them away from the rest of the galaxy for a good amount of time, we could buy those people more time to prepare to help us." Dodonna said, "I know a few other places that would make good outposts. For now we must return to Mustafar." Padme looks at all this. She gets pains and she falls to the floor. The Professor feels her. The Professor said, "I think she's ready to give birth." Ackbar said, "Take her to the medical section." C-3PO watches this with R2 and C-3PO said, "I think we're doomed." The Professor hands C-3PO his hand upgrades. The Professor said, "You won't be doomed with this." C-3PO looks at the hand upgrade and he equips it.

Chapter 9

The insurrection team lands on Mustafar and they are in the lab. R2 connects with the

computers. R2 shows the layout of the place. The Professor said, "The main platform of this place is very large. We will have the main fight take place on this large platform space here and some of the technology people will stay in the lab. I can control some of the environmental controls of this artificial environment. I can make it snow and make it rain. I will tell people on our side what is coming up. I can use this to our advantage." Empire frigates enter the orbit of the planet Mustafar. Tarkin appears on the holographic communicator in the lab on Mustafar. Tarkin said, "Rebel forces. You are surrounded. There is nothing more you can do. Turn yourselves in." Darth Vader appears on the holographic communicator. Tarkin said, "If you do not come to terms of our conditions, we will send Darth Vader after you." Obi-Wan said, "I mostly taught that guy and Darth Maul taught him the rest. This is going to be an easy battle if he commands it."

Empire ground forces show up on Mustafar on the large platform. They deploy clones, Jango Fett, and Darth Vader. Obi-Wan, Yoda, Darth Maul, and remaining Jedi enter the fray. The fight begins. Obi-Wan cuts down a few clones and Yoda does the same. Some other Jedi get shot down and one of them gets slashed down by Darth Vader. Obi-Wan and Yoda stay close to each other as they fight off the clones. Yoda said, "Now that Valmer is gone, second in command of the Jedi you are, Obi-Wan." Obi-Wan said, "There is not much of a Jedi order left." Obi-Wan deflects some more shots from clones. Darth Maul has his dual bladed lightsaber out and he stays on the sides of the battle. Darth Maul walks to the far edge of the fray. Darth Vader comes out with his lightsaber out. Darth Vader looks at Darth Maul and Vader said, "We meet again at last. The circuit is now complete. I am a much better master than you." Darth Maul and Darth Vader duel. They clang their swords together and Darth Maul jumps and flips over Darth Vader. They clang their lightsabers together. Darth Maul kicks Darth Vader in the face. Darth Vader singes Darth Maul's robes. They jump to a narrow path connector and they keep dueling on that. Darth Maul keeps getting lured further and further to the edge. Darth Vader slashes Darth Maul's lightsaber some more. Darth Vader said, "You killed my family. You killed my friends. You ruined the Republic that was good. You cut off my right hand and then you made me into this thing. You really are the vilest thing in the universe." Darth Vader uses his lightsaber and he cuts the narrow pathway downwards and he cuts it off completely. Darth Maul is on the narrow path that just got cut off. Darth Maul and the small piece of cut off pathway falls to the flowing lava below. Darth Vader rejoins the battle.

Bombs explode on the surface. The surface becomes icy and clones begin sliding around. Obi-Wan and Yoda kick a lot of the clones off the surface. It then becomes overly hot and it rains. It becomes foggy. More of the clones get slashed down. Darth Vader uses the force to see and he sees the Professor is in the lab. Darth Vader heads for the lab. Darth Vader cuts down the door to the lab. Yoda jumps in the lab and he duels with Darth Vader. Darth Vader said, "Master Yoda." Yoda said, "Anakin." Darth Vader said, "Don't call me that!" Darth Vader uses the force and he throws Yoda to the side and he goes to where the Professor is. The Professor said, "Look, you remember me right? I never had anything to do with you except be a friend." Darth Vader said, "You are somewhat right on that part so I will leave you for someone else." Darth Vader uses his lightsaber and he completely destroys the inside of the lab. The environmental controls malfunction and the place becomes hot from the lava that flows below. Clones barge into the lab and they shoot in there. C-3PO comes out with R2. R2 connects to a surviving computer and he locks the door behind the clones so no more can enter. R2 activates the other door so the Professor and other people can leave. The clones are going to fire on R2 but C-3PO gets in the way. C-3PO gets shot at by the

clones and C-3PO uses his hands to block the shots and absorb them. C-3PO fires them back at the clones and the clones get shot down. C-3PO said, "R2, we better leave this lab. We may get destroyed if we stay in here. We must go with the others."

C-3PO and R2 enter the fray. C-3PO absorbs more energy into his hands and he fires it back at the clones. The Professor stands next to a Jedi. The Jedi gets shot down and he drops his lightsaber. The Professor looks at the lightsaber. The Professor said, "A lightsaber is a weapon for a more civilized age." The Professor picks up the lightsaber and he turns it on. He swings it randomly and he hits a clone with it. The Professor uses it to block a shot and deflect the shot into the floor. Jango Fett dashes over to the Professor. Jango Fett open fires on the Professor. The Professor blocks the shots but he misses and he gets hit. Jango Fett shoots at the Professor again and the Professor falls to the floor. Obi-Wan jumps in and he hits Jango Fett's head. Obi-Wan deflects Jango Fett's shots and he cuts up Jango Fett's weapons. Jango Fett fires out a cable and Obi-Wan gets tied up in it. Obi-Wan thinks hard for a second and he uses the force to move the cable off him and he ties up Jango Fett with it. Obi-Wan cuts off Jango Fett's head.

There is still some action between the clones and other remaining insurrection members. Obi-Wan and Darth Vader see each other. Darth Vader said, "It is time for what you've been waiting for." Obi-Wan and Darth Vader duel. Darth Vader takes a good swing at Obi-Wan and Obi-Wan rolls out of the way. Obi-Wan slashes Darth Vader's lightsaber. Darth Vader jabs his lightsaber at Obi-Wan and Obi-Wan dodges it. Obi-Wan jumps over Darth Vader and he spins and blocks a lightsaber attack from Darth Vader. Yoda is standing at the side and Mon Calamari transports show up and they pick up Yoda and other survivors. Clones shoot at the transports. C-3PO tries to stop them but C-3PO gets shot down and the clones break his hands off. Mon Calamari insurrection members take C-3PO's remains to the transport. Obi-Wan keeps dueling Darth Vader. Obi-Wan looks up and he sees clone bombers are beginning a bombing run. Obi-Wan clashes his lightsaber with Darth Vader's and Obi-Wan pushes Darth Vader back and Obi-Wan runs for the transport. The bombers start bombing down the area. Darth Vader gets into his TIE fighter and he leaves the planet. The entire area gets bombed and destroyed.

Obi-Wan, Yoda, Organa, and R2 are in the medical section of the Mon Calamari frigate. Padme has bad visions of herself with Anakin and Anakin turning into a monster. Padme gives birth to twin babies. A boy comes out and Padme said, "Luke." A girl comes out and she said, "Leia." Padme falls back in her bed. The medical droid said, "She lost the will to live. She cannot take the trauma of giving birth twice and then the knowledge of the one she loved the most turning bad. I'm afraid there is nothing more we can do for her."

Obi-Wan and Yoda sit at a table with Organa. Organa said, "We need to keep the offspring of Anakin far away from the Empire as possible. I volunteer to take the girl. I always wanted a girl." Obi-Wan said, "I think it is fair that the boy comes with me to Tatooine. The Empire has no business there and his family lives there too." Yoda said, "To Degobah I go. It is the planet I was born on hundreds of years back. My race has long died out. I am the only one left." Organa said, "I am forming a new alliance of people that want the Empire gone. I will take the droids, C-3PO and R2. They belonged to the Professor and he did not have a will but I think he wanted me to have them and take care of them. They can be used for a lot of great things. I think I can fix 3PO." Obi-Wan said, "There might be hope." Obi-Wan looks at Anakin's lightsaber in his hand. Organa returns to Alderaan and he introduces Leia to his

wife.

Darth Vader stands at the bridge of the main flagship of the Empire. He is there with the Emperor and Tarkin and they watch the Death Star being built. The Empire sends its forces to various parts of the galaxy to enforce order. Coruscant becomes a heavily armed fortress for the Empire.

Obi-Wan goes to planet Tatooine. He hands baby Luke over to Owen Lars and his wife. Obi-Wan said, "Here is your baby. I am going to go and live in that shack over there." Owen Lars and his wife give Obi-Wan weird looks. Obi-Wan goes to his shack and he looks over at the two suns setting. Obi-Wan tightly grips onto Anakin's lightsaber.
